

VIPERS POST - DOC FELLOWSHIP AT INAF – IASF MILANO

INAF – IASF Milano is awarding a post-doc fellowship to work on the VIPERS (VIMOS Public Extragalactic Survey, <http://vipers.inaf.it>) project.

The successful candidate is expected to devote at least 70% of his/her time to the VIPERS project, both supervising the automatic data reduction and measuring redshifts, and developing a scientific topic based on the VIPERS data, preferably on galaxy formation and evolution.

The fellowship will initially be granted for one year, with an extension for a second year subject to evaluation of performance. The gross yearly salary will be € 25,000.00, corresponding to a monthly net salary (after taxes) of approximately € 1,600.00.

Besides VIPERS, IASF Milano is a member of the VVDS, MASSIV, COSMOS/zCOSMOS and XMM-LSS consortia, and, as such, it has access to all data and data products of those surveys.

Applications, consisting of a CV, publication list, research experience, and possibly a VIPERS based research project, should be sent electronically to the Director of IASF Milano (dr. Dario Maccagni, dario@lambrate.inaf.it). Questions can be directed to dr. Marco Scodreggio (marcos@lambrate.inaf.it) or dr. Bianca Garilli (bianca@lambrate.inaf.it). The deadline for applications is November 30, 2009. Applications received prior to the deadline are assured of full consideration, however, the position is open until filled. **Applicants should also arrange for three letters of reference** to be sent electronically to the Director of IASF Milano by the same deadline. Starting date: as early as possible beginning from January 2010.

Il Direttore dello IASF Milano
Dr. Dario Maccagni
